## TAX ASSESSMENTS MUST 'STAND' TWO YEARS MORE RULES ATTORNEY GENERAL

Decision Follows Request for  
Ruling on Authority of  
Tax Commission

## REVALUATION OF PROPERTY UNTIL 1921

Soldier, Sailors and Marines Are  
Allowed to Vote in  
Primaries

(Montgomery Bureau Albany-  
Decatur Daily)

MONTGOMERY, Ala., March 9.—Assessments of real property for taxation established during the tax year 1919, and not revised by the state tax commission during the tax year 1920 must stand for two years and the state tax commission is now without authority to make revaluations until the end of the two year period, under an opinion given to the state tax commission by Hugh White, assistant attorney-general, and made public by the commission. The opinion was rendered following a request for a ruling on the authority of the tax commission at this time.

Under this opinion there cannot be revaluation of real property in Alabama until October 1, 1921, which will be the start of the second two-year tax period under the general revenue law of 1919. Many requests for an order for the revaluation of property have been received by the tax commission in recent weeks and delegations from Madison and Talladega counties called on Governor Kilby and the tax commission in support of their request for a revaluation. These personal appeals and other informal appeals caused the tax commission to seek the advice of the attorney-general.

Resolutions mourning the death of Congressman Fred L. Blackmon of the fourth district were adopted by a voting vote of the state Democratic Executive Committee when it met in Birmingham to provide for the selection of a Democratic nominee for the position vacated by the death of Mr. Blackmon.

Soldier and sailor Democrats who have claimed exemption under the constitutional amendment relieving them of the payment of poll taxes will be permitted to cast their ballots in Democratic primaries until the supreme court has held the amendment to be invalid. This policy was adopted by the state Democratic executive committee at Birmingham Monday on motion of Borden Burr, of Birmingham.

Although the amendment was submitted on a date selected by the Governor and the highway bond amendments was held to be invalid because the Governor, instead of the legislature, set the selection, the executive committee took the position that all acts and amendments are binding until the supreme court has rendered an adverse decision. Soldiers and sailors will be asked to enter the special Democratic primary for the nomination of a successor of Congressman Fred L. Blackmon even though they have not paid their poll taxes. The only restrictions will be those placed on all persons who participate in the primary.

Democrats of the fourth congressional district will name their candidate for congressman as the successor of Fred L. Blackmon, deceased, in a special primary Tuesday, April 12, and every person who seeks to cast a vote must affirm that he voted for every Democratic nominee in the last general election. Taking notice of the rapid increase in the vote of the Republican party in Alabama, the state Democratic executive committee in session in Birmingham, Ala., decided to close the gates and put up the bars. Every person in the future must prove his party standing.

## MORGAN CO. FEED STORE

The name of the feed store recently opened at the old Papenburg stand has been changed to the "Morgan County Feed Store" and F. E. Taylor is the manager. A general line of grain, hay and feed will be carried and a specialty made of car load lots of hay and ear corn. The new store has an attractive checkerboard front.

## LABOR UNION AND COMMERCIAL UNIT WILL COOPERATE

Closer cooperation between the Central Labor Union and the Albany Chamber of Commerce in all things pertaining to the public interest is the goal of plans now being worked out by both organizations.

Upon invitation of the Central Labor Union the Board of Directors of the Chamber of Commerce will attend the meeting of the former organization Monday, March 21, and measures in which both organizations are interested, looking to the upbuilding of this section, will be discussed. The invitation of the Union was accepted by the directors at their regular meeting late Tuesday.

## To Visit Council

The directors also decided to appoint a committee of five, composed of one member of the board and four members of the organization, to attend every meeting of the Albany city council to stimulate interest in city affairs. The committee for the next council meeting is composed of H. M. Preist, director, T. H. Alexander, Cornelius Able, D. C. Adams and M. L. Britain.

The Chamber of Commerce will undertake to raise the remainder of Albany's quota for the Tennessee River Improvement Association. The city's quota was \$1500, but approximately \$500 of the amount already has been subscribed. A committee composed of T. A. Bowles, chairman, John Knight and John Patterson was named to raise the balance.

The directors decided to send Mr. Bowles and Mr. Knight to Chattanooga March 15 to attend the meeting of the Tennessee River Improvement association as delegates from the local commercial body.

## MEDIATORS SEEK SETTLEMENT BASIS

(International News Service)

ATLANTA, March 9.—Freight and passenger service on the A. B. and A. railroad between Birmingham and Lineville was reestablished today, according to an announcement by the general office here this afternoon. The first train today was Number 22, leaving Birmingham at 6:30 a. m. with "Rick" Woodard as engineer.

This train is expected to return to Birmingham tonight from Lineville. A local freight, it is expected, will leave Lineville this afternoon for Birmingham in charge of W. J. Tinsley, an old engineer, now a member of the firm of the Jackson-Tinsley Lumber company of Lineville. These two services will be maintained daily, officials state.

With government mediators at work here trying to find the basis for settlement of the difficulties between the Receiver and the brotherhoods, conferences were held this afternoon with the union heads and with Receiver B. L. Bugg.

## 'DRY' MEASURE IS LIBERALIZED

(International News Service)

WASHINGTON, March 9.—The sweeping decision, which will liberalize interpretations of the Volstead act, was made public by Revenue Commissioner Williams today. The decision, which throws into the discard several existing regulations, was the last opinion drawn by A. Mitchell Palmer before retirement.

The ruling holds, among other things, that the government has no power under the prohibition law to limit the quantity of liquors, of whatever kind, manufactured or sold for non-beverage purposes.

It was further declared that such rules proposed to limit the number of permits for the production of certain liquors would be in effect an "amendment" to the law itself, and are invalid.

## MISS WALDEN WINS

Miss Julia Walden won the sack of White Crest flour at the demonstration drawing Tuesday afternoon.

## FOREST FIRES RAGE ON RESERVATION OF U. S. IN LAWRENCE

(Special to The Daily)

MOULTON, March 9.—Forest fires are raging in the Forest Reservation covering the southern part of Lawrence county and northern portion of Winston. Hundreds of acres of forest that have been free from fire for several years now are burning in pine, oak and poplar growth; M. B. Lufburrow, head of the Forestry work in the reservation, stationed at Moulton, is directing the efforts to control the fires at various points in the two counties. He is assisted by the renters of some of the farms that have not yet been entirely abandoned and by others interested in keeping the fires from the rim of the mountains on the north side of the timber.

The warm days of March are bringing out the bees of all types and conditions and among them the near-political bee. Rumor has it that possibly Uncle Sam will discard a portion, at least, of the civil service law, enough at least to allow him to reward some of his nephews with post office positions and the bee is buzzing loudly in the bonnets of Harry Weatherwax, "Cap" Weatherwax, the popular rural carrier on Route 2, and J. R. Burks, the teacher-farmer living in the edge of Moulton. Each of these men would like the place if the present popular incumbent must retire, and each is circulating petitions asking friends of all political creeds to subscribe to their ability to care for the Moulton and Lawrence county mail if appointment be given them.

Capt. R. C. Goodchild, of the Florence Corps Salvation Army, accompanied by Wm. Stewart, were in Moulton, Tuesday, in the interest of the Salvation Army work. They came to arouse an interest in Rescue work done by the Army and to make collections for the work.

Miss Clara Stewart, Red Cross Home Service Secretary, although the work has been suspended temporarily so far as the Red Cross work is concerned, continues to serve many ex-service men in securing their uniforms, discharge papers, and other work that she has been doing for the past several months. Miss Stewart has instituted in connection with her work a subscription library to which she gives her services free of charge to a number of the people in Moulton.

Formal announcements have been by the Lawrence County High School for Field Day on the High school grounds, Saturday, March 19. All schools in the county that can do so were asked to take part not only in the athletic exercises but also in formal school exhibits. For the schools nearer Town Creek an excellent program has been prepared for Town Creek Field Day, Friday, March 18; for this occasion J. B. Hobdy, Director Vocational Work, Department Education, Montgomery, is expected to give an address.

## GAS CONSUMERS GIVEN WARNING

Gas patrons of the Alabama Power company are being notified by the company of a recent ruling of the Alabama Public Service Commission that the company shall not be required to furnish gas service to persons using any gas heaters not equipped with vent pipes to carry off all products of combustion arising from the use of the heater.

The regulation was adopted by the commission as a protection to gas consumers throughout the state, experience having shown that instantaneous gas water heaters are dangers to human life, unless they are provided with an adequate vent pipe to carry to the outside air all poisonous products caused by combustion, the company's statement declared.

## REV. L. F. GOODWIN CALLED TO ATHENS CHARGE, CONSIDERS

Rev. L. F. Goodwin, pastor of the Westminster Presbyterian church for almost four years, has been given a unanimous call to the Presbyterian church at Athens.

The Athens church is one of the old historic congregations of North Alabama. It occupies one of the most modern and best equipped buildings of the denomination in the state. Owing to Athens Female College and other educational institutions located there it is considered an important charge.

The call comes as a surprise to Dr. Goodwin, who while considering it will keep in mind the interest of his congregation here and the Presbytery to which he and both the churches are amenable.

Should he decide to go to Athens, the Twin Cities will suffer a distinct loss.

## EVERY CHURCH OF NORTHERN DISTRICT EXPECTED TO SEND DELEGATE TO MEET

Loyalty Conference Will be  
Opened at Cullman on  
March 29

## PLAN ENTERTAINMENT FOR THE MANY VISITORS

Dr. L. R. Scarborough Will Deliver the Campaign Address to Baptists

All churches in the Northern district have been requested to send delegates to the Loyalty Conference of the Woman's Missionary Union of the Baptist church, which will open in Cullman at the First Baptist church on March 29. Delegates expecting to attend the conference were requested to send their names to Mrs. O. M. Fisher, Cullman, who is looking after the entertainment arrangements. The conference will open at 9 o'clock on the morning of March 29th and the program for the day, as announced Wednesday, follows:

9:00 a. m.—Conferences.  
Associational officers.  
W. H. S. Officers.  
Young People's Officers and District Counselor.

10:00 a. m.—Intercession—Loyalty to Christ.  
Song—Loyalty Campaign Song.  
Welcome to our Homes—Mrs. E. Fleming.

Delighted to be here—Speaker appointed by Chairman.  
Appointment of committees.  
Recognition of visitors.  
District Loyalty—Vice President, Mrs. M. P. Edwards.

Proving our Loyalty—Miss Northington.  
Prayer.  
Special Music—Solo—Mrs. Jesse Oldacre.

Facing our Task—Mrs. Wm. H. Sanford, Pres. Ala. W. M. U.  
Campaign Message—Miss Kathleen Mallory.

Noon—(Dinner and supper will be served all present at the church.)  
1:30 p. m.—Intercession—Paying our Vows.

Two minutes from each Associational and District Officer.  
Recognition for best attendance from visiting delegations.

Association—Visiting Society.  
Special Music—Solo—Mrs. C. W. Bledsoe.

Missionary Message—Mrs. Kate Cox White, Brazil.  
Young People's Hour—District Counsellor presiding.

Loyalty of our Young People—Miss Mallory.  
Crem-ate-Playlet by Cullman Y. W. A.

Consecration Hour—Our Brightest and Best for our Master.  
Evening Program  
7:30 p. m.—Campaign Song.  
Special Music—Anthem by chorus choir.

Intercession by pastor.  
Quartet.  
Campaign address—Dr. L. R. Scarborough.

## ADMINISTRATION TO PROCEED SLOWLY IN 'IRONING OUT KINKS' IN FOREIGN AFFAIRS

President Harding Watching the Developments in Germany and in Russia

By George R. Holmes  
International News Service Staff Correspondent

WASHINGTON, March 9.—There were unmistakable signs today that the new administration is going to proceed slowly and with extreme caution in straightening the kinks in our European relations.

The allied occupation of German territory and the tide of revolution, which for the first time in three years, bids fair to engulf Soviet Russia, are two situations that are being closely watched by the administration, but they are scrutinized more against the time when American policies must be formulated than with any idea of taking steps immediately.

## PUTTING OWN HOUSE IN ORDER FIRST IS PLAN

Pre-Campaign Promises Will be Kept, Harding Advisers Say

By George R. Holmes  
International News Service Staff Correspondent

The inter-allied high commission has established censorship upon the telegraph and telephone lines in all the zones of occupation—both the new and the old—including the small area held by United States troops at Coblenz. Dispatches received from the International News Service correspondent were marked "censored" and were delayed about 8 to 10 hours, arriving here from Dusseldorf and Neuss.

In the five days that he has been in the White House, President Harding has conferred with scores of men high in business and public life, but the overwhelming burden of his talk has concerned conditions at home and not abroad. With only two men, Secretary of State Hughes and Senator Henry Cabot Lodge, has he discussed international affairs.

President Harding is more or less committed to the recall of American troops from the Rhine as soon as that is found practical. The allied advance into German territory has altered the aspects of this problem materially.

## LABOR TO MEET IN C. OF C. ROOMS

The sessions of the Alabama Federation of Labor, which meets here in May, probably will be held in the rooms of the Albany Chamber of Commerce. The Board of Directors of the latter organization, at a meeting today, placed the commercial unit's quarters at the disposal of the visiting delegates.

The Federation will bring together delegates from practically all unions in the state and will be largely attended and many entertainment features are being arranged for the visitors.

## JACKSON COUNTY QUIET AUSTIN SAYS

(International News Service)

STEVENSON, Ala., March 9.—Minor disturbances are expected in this section of Jackson county but no more serious trouble is expected, according to Conrad W. Austin, chief of the Alabama law enforcement officers, who took charge of the situation here yesterday. An area of approximately 25 miles square in this section is virtually an armed camp, but farmers—members of the Tenents Union and non-union men—are going quietly about their affairs.

A total of 20 men are at Scottsboro under arrest following the arrest of nine—five of whom are negroes—last night by Austin's men in the northern part of the county, charged with whipping a white farmer.

## "RICK" WOODARD AGAIN MAKES RUN

(International News Service)

BIRMINGHAM, March 9.—"Rick" Woodard again mounted to the cab of train Number 22, of the A. B. and A. from Birmingham to Lineville this morning at 6:30 o'clock and C. R. Watkins, union conductor, who has been out on strike, reported for duty and made the run with Mr. Woodard. M. H. Evans, director of the strike here, stated that Watkins was the only member of the strikers unions deserting thus far.

Indications point a long drawn out fight between the men and the A. B. and A., there being no basis for a settlement in sight, it was stated.

No announcement as to beginning other train schedules was made by the road today.

## Baptist Speaker To Visit Hartselle

Dr. E. Y. Mullins, President of the Southern Baptist Theological Seminary, will speak at Hartselle Monday, March 28. His subject will be "Some phases of our National Life." An invitation has been extended to Baptists throughout Morgan County to hear the address.

## COUNCIL O.K.'S ALLIED SEIZURE HUN CUSTOMS

(International News Service)

LONDON, March 9.—The allied supreme council at Premier Lloyd George's official residence this afternoon approved seizure of German custom houses along the Rhine. It was decided that all funds and equivalent in the seized customs depots should be credited to the German reparations fund.

After the discussion of economic penalties for Germany, the allied premiers took up the Turko-Greek dispute in the Near East.

By NEWTON C. PARKES  
International News Service Staff Correspondent

PARIS, March 9.—The allied military lines today were advanced to a point only five miles from Essen. This important industrial and coal mining city, which is the seat of the gigantic Krupp works, is now within easy range of the allied artillery.

General Gaucher, who led the French advance into Dusseldorf, issued a proclamation calling upon all Germans, except the police, to surrender all their arms and ammunition within 48 hours.

The inter-allied high commission has established censorship upon the telegraph and telephone lines in all the zones of occupation—both the new and the old—including the small area held by United States troops at Coblenz. Dispatches received from the International News Service correspondent were marked "censored" and were delayed about 8 to 10 hours, arriving here from Dusseldorf and Neuss.

## DECATUR WILL AID IN BUYING SLIDES FOR PLAYGROUNDS

The city of Decatur will aid the Parent-Teachers' Association in purchasing equipment for the playgrounds for the schools, according to a decision reached at the regular meeting of the council last night. A letter from the organization was read, declaring that approximately \$200 already has been pledged by the association and the faculty and children. The municipality was asked to make up the balance of the \$400 sought for purchasing the equipment. The request was granted.

The Tennessee Valley bank, which owns the lot on the corner of Bank and Vine streets, now unoccupied, has announced it will permit the schools to use the property as additional playgrounds and it is expected that some of the equipment will be placed there.

There was discussion of a chicken ordinance, but the matter was passed until a future meeting.

## STRIKE CLOUDS ARE HANGING AS UNIONS TALK PACKERS PLAN

(International News Service)

OMAHA, Neb., March 9.—Strike clouds hung over the conference of representatives of packing house employees throughout the United States as the gathering assembled here today. A labor dispute that may involve 200,000 employees in the packing industry may result from the two-day conference that opened this morning.

Unions leaders made it clear they will insist that the packers continue to observe the arbitration agreement under which wage disputes have been adjusted for the last year or more. Approximately 400 unions are represented at the conference here.

## Governor Probes Charges vs. Judge

(International News Service)

LITTLE ROCK, March 9.—Governor McRae sent a message to the House and Senate Tuesday in response to their joint address requesting that he remove from office Judge John W. Wade, circuit court. He said that the provisions of the constitution require that removal shall be for good cause, "thereby implying an investigation on the part of the Governor."

The Governor announced that Wednesday at 11 a. m. he will call to his office for investigation, Judge Wade, the prosecuting attorney and the members of the grand jury to whom Judge Wade made statements to which the general assembly has taken exception.

## Booze Storages Will be Reopened

(International News Service)

WASHINGTON, March 9.—Bonded warehouses, containing whiskey stocks, which have been closed for sometime, will be reopened within the next few days to permit whiskey withdrawals by those authorized to do so, it was announced here today. The permissioned class consists mainly of wholesale druggists.

## STATS: LENIENT ARDMORE, Okla., March 9.—The prosecution will not ask the death penalty if Clara Emith Hamon is convicted of the slaying of Jake Hamon, Oil King and Republican national committeeman, it was learned today.

## BROTHERLY LOVE

It is the glorious era of brotherly love. The happy condition is thus described by the observant editor of the Kansas City Star:

How we Americans do love each other! You get in ordinary conversation. All of us are convinced we are being robbed by somebody else. Our next door neighbor is a good fellow personally. But as a business man we know he is a pirate. The salaried man is suspicious of his employer. He knows his grocer is a conspirator. As for the store downtown where his wife trades, he calls it the daylight robbery. So, too, the dealer in notions looks darkly on the clothier. Both the clothier and the notion man blame the jobber and the farmer. The farmer is convinced he is the victim of the boards of trade. The Wall street broker is certain the country is being held up in the price of eggs and meat. With all this brotherly love so widespread, isn't it a good deal of a miracle that the country is able to rock along and not fly to pieces?

Think, too, of the sweet and amiable emotions that are stirred in the hearts of nations as they contemplate their neighbors and the "aspirations" of those neighbors.—Montgomery Advertiser.

## WORSE THAN BEING IN DEBT

If European countries were excused from paying the approximately 10 billion dollars they owe to the United States, how would their credit rating be thereafter?

A nation is a group of individuals. Any person who, in a desperate plight, was aided by a banker and then asked the banker to cancel the debt would not be considered highly thereafter. So, too, with a nation.

Honest men and honest nations pay their debts, however long it may take them to discharge the obligations.

Gratitude has been defined as a lively appreciation of favors to be received.

If Europe were granted indulgence in the present instance it probably would expect or attempt to borrow more money here and there would be no assurance that, having started to beg off from paying it would not continue the same way.

Would it be able to borrow in America? Not in a thousand years.

Its credit would be destroyed, and deservedly so.

The ultimate cost of that wrecking of national credit would be far more than the present debt.—Philadelphia Public Ledger.

Tennessee is agog over "the back tax system." The present tax system is the bone of contention in Alabama.

A fellow named Harding has bought a picture show at Muscle Shoals, Ala. Hopes to have some influence with the President.

Refusal of the new administration to grant further credit to foreign nations, in the face of the agitation now being conducted for cancellation of the debts to America already existing, is a mighty good start for President Harding.

The other day the writer had occasion to travel over a fair sample of Alabama roads. He could not help but wish the Supreme court had been along. They would have overlooked the whole gosh-darned constitution.

Educationally Alabama seems to be the Athletics of the school league. We learn from School Progress that 43 of the 48 states pay their teachers more than Alabama; that 14 of the 48 states pay their teachers twice as much as Alabama; that 44 of the 48 states have longer school terms than Alabama.

A. Mitchell Palmer left a parting gift that will be appreciated by the thirsty.

The orders to occupy Germany was music to the Frenchmen's ears.

Holy Smoke! A Kentucky moving picture house has arranged a system of jars for male patrons who desire to check their cigars.

"Some persons would prefer to have the collection taken up in the middle of the sermon when they are sleeping soundly," remarks The Huntsville Telegram. Others would prefer to have the collection taken early, before they arrive.

"Kill the Umpire" soon will be a favorite form of letting out pent up emotions of American people

One congressman accuses another of being "a bachelor without wife or children." What's unusual about that? Now if he were a bachelor with either.—Huntsville Telegram.

"Who will be Mr. Harding's Dr. Grayson"? inquires The Montgomery Advertiser. What the nation is much more interested in is who will be Mr. Harding's Colonel House?

An invitation has been extended to Secretary of War Weeks to visit Muscle Shoals. Here is a splendid opportunity for the Republicans to rise above political partisanship.

By the way, what has happened to Mexico?

From the numerical strength of recent affrays it seems that "wine, women and song" now is "woman, women and song."

Reduced cotton acreage this year will mean increased bank accounts next year.

Diversification of crops is another way of saying successful farming.

Buying your needs now may help to give you funds with which to buy them later.

Tennesseans must kick themselves when they think of Muscle Shoals.

On rainless days is the time to prepare for the "rainy day."

It was never intended that his Majesty, the Law, should be dethroned. When he is "unemployed" civilization will go where Mr. Bryan said his heart is.

Making Germany share the cost of the war with her victors is simple justice.

Judge Landis must have thought or dreamed he was a base ball player when he made his recent play to the grand stand. He kept a thief out of jail and he may keep himself out of a Judge-ship.

The Berlin Government says the Allied armies will not be resisted. Had the Allies not resisted the German armies 1914-18, imagine the consequences and be thankful the world is no worse off than it is.

The Germans cannot tell in advance whether or not they can pay the indemnity. Let them try as hard as they did to enslave the world, and they may succeed better than they did in a military way.

General Dawes recent expletive language may have been a screen of smoke to hide something. Nevertheless it was a mighty good smoke, and very soothing.

Ebert and Eherinbach says: "The German government will never rest until the foreign invader succumbs to our just portio." What ever that statement may mean no body seems to know, it sounds like political home consumption dope.

The best cartoon of yesterday shows a dead-looking boy being carried away from the scene of a wreck caused by his wheel and an Auto trying to occupy the same space at the same time. The "copper" is taking the number of the Auto. "Too late to begin being careful" is the title of the picture.

President Harding said: "We do not intend to be entangled." He evidently was using "we" in the old newspaper sense, and meant himself. Well, the Senate will tangle him up if he don't watch out, inspite of his Sunday morning breakfasts with members of the "gang."

## Rev. Oakley Will Preach Tonight

Rev. J. B. Oakley, of Knoxville, Tenn., will preach at Willoughby Presbyterian church Wednesday night and tomorrow night at 7:30 o'clock. Every member was urged to attend. Friends were welcome.

## Panama Soldiers Are Withdrawing

(International News Service)  
BALBOA, C. Z., March 9. — Withdrawal of the Costan Rican troops across the Sixtalo river has been completed and it is expected the Panamanians will withdraw from the disputed village of Coto on the Panama-Costa Rica frontier tomorrow. Belief is growing in certain circles that Panama will accept the American offer of mediation upon the basis of the White award.

## Eden Remains Open Commission Holds

MONTGOMERY, Ala., March 9. — Special.—Eden must not be closed. The Alabama public service commission has ruled that citizens within the gates of Eden may continue to enjoy their privileges and pleasures. The petition of the Southern railway for permission to close its Eden agency was denied by the commission today. Mulga must also be kept open to the public.

**Good Medicine!**  
The Journal of the American Medical Association recommends a laxative fruit cake made of equal parts of senna leaves, figs, dates, prunes, and raisins. It does not matter much whether the ingredients be weighed or measured, as exact proportioning is not essential. The dose is one slice, large or small, according to the requirements of the individual.

**We Took the Advice.**  
People continue having trouble with the well-known and highly esteemed English language. A placard seen on Washington street runs: "Don't fail to miss this sale of shoes."—Boston Transcript.

**Just as She'd Finished.**  
Marjory (before getting into bed)—Mamma, I forgot something I wanted to say in my prayers. Shall I say P. S.—Boston Transcript.

**Personality.**  
The greatest and most vital power in influencing life is personality. It is greater than law, instruction or example.—Lyman Abbott.

**MAXWELL HOUSE COFFEE**  
Also Maxwell House Tea  
100% PURE Good to the last drop.  
CHEEK-NEAL COFFEE CO., NASHVILLE, HOUSTON, JACKSONVILLE, RICHMOND.

**Pepper Tea.**  
Pimenta, or pepper tea, deriving its name from the marked similarity between this fruit and the pepper bean, is the berry of a plant which grows wild in Honduras, Central America, the extract of which enjoys a wide usage as a substitute for tea and coffee, and is by many preferred to either, writes a correspondent from Puerto Cortez. The beverage is very soothing, and should, if introduced on the market, enjoy a marked degree of popularity.

**Open Country Best of All.**  
Of all places in the world where life can be lived to its fullest and freest, where it can be met in the greatest variety and beauty, there is none equal to the open country.—Exchange.

## Alabama Public Service Commission Makes Ruling on Proper Installation of Gas Water Heaters

THE FOLLOWING LETTER HAS BEEN SENT TO THE GAS CONSUMERS OF ALBANY-DECATUR:

Dear Sir:—

Please be advised that the Alabama Public Service Commission on January 31, 1921, passed the following service regulation affecting the gas service of Alabama Power Company:

"The Company shall not be required to supply and may refuse to supply gas, and may discontinue its service upon five days' notice, to any person or persons now using, or who may hereafter install, any gas heater used or intended to be used for heating water, until and unless said gas heater shall be provided with a vent pipe of sufficient size, character and draft to carry off to the outside air all products of combustion arising from the use of said gas heater."

This regulation was adopted by the Commission as a protection to our gas consumers throughout the State, experience having shown that all instantaneous gas water heaters are dangerous to human life, unless the same are provided with an adequate vent pipe to carry off to the outside air all poisonous products caused by combustion.

More than forty of the large cities in the United States have adopted ordinances prohibiting the use of an instantaneous water heater without a vent pipe, among which cities are Chicago, Denver, Los Angeles, Portland, Tacoma and Memphis.

You are, therefore hereby notified that by authority of said regulation of the Alabama Public Service Commission, this Company may discontinue its service upon five days' notice to any consumer who has now installed, or who may hereafter install, any gas heater used for heating water, until and unless said heater shall be provided with a vent pipe to carry off to the outside air all products of combustion arising from the use of said gas heater.

In view of the dangerous nature of ventless gas heaters, we earnestly request that you take immediate steps to have your heater properly vented and we ask that you kindly notify the Company as soon as such work has been completed.

Yours very truly,

**ALABAMA POWER CO.**  
District Manager.

## Mother, Here's A Chance To Save Money

On Cost of "Kiddies" Shoes. "Youngster" Brand Offers Two Pairs at a Little More Than Price of One

Don't throw away the "Kiddies" shoes, just because you think they are worn-out or past repair. Cut down the cost of your shoe expenditures—make one pair do the work of two!

And that's just what you can do too, if you buy "Youngster" shoes, and then take advantage of the Truitt Factory Re-building system—a plan that saves you the cost of the second pair by making the old ones you would have thrown away, wear like new.

The "Youngster" re-building system for children's shoes, is not just ordinary repairing or cobbling. The shoes are actually rebuilt from "stem to stern" by experts shoe makers, over the same "last" the shoe was originally made on. When they are returned to you, they look and wear like new. But this re-building service is offered only on "Youngster" shoes.

No! "Youngster" shoes do not cost any more than other makes of children's shoes, and in many instances cost a great deal less—not considering our re-building feature at all, which makes one pair do the work of two.

The "Youngster" Shoe—is an ideal shoe for the boy or girl who is vigorous and full of life, dressy enough for best, and rugged enough for the most strenuous play—Light, Cool, Comfortable and Good Looking. "Youngster" shoes fit the feet and bend with every step, almost like being "barefooted." Still they are Strong and Sturdy and can be depended upon to stand the rugged "wear" and "tear" of healthy youth's most vigorous usage.

Wouldn't you like to know more about this shoe, without putting yourself under any obligation? We would like to send you a booklet—Free—telling all about children's shoe—and our wonderful a booklet—Free—telling all about children's shoes—and our wonderful re-building service, which makes an old pair and wear like new. If you will send us your name and address—together with the name and address of the shoe store where you buy your shoes, we will mail you this valuable, money saving booklet free of charge.

Please remember, you do not assume any obligation. We do not even sell shoes by mail. We are large and well-known manufacturers of children's shoes, but we haven't a dealer in your town, and we want one within the next 30 days and are taking this method of getting him. Send names to Truitt Bros., Advertising Dept., 351C, Binghamton, N. Y.—Adv.

Friday Afternoon Rook Club	Mrs. J. T. Nelson

### AUCTION BOOK CLUB

The Auction Book club met Tuesday afternoon at 2:30 o'clock at Terrace Place with Mrs. E. W. Godbey, hostess. Tables were placed in the spacious living room, where silver baskets of spring blossoms lent a graceful decorative effect.

Mrs. J. Chafin was the only club guest at this meeting. Mrs. R. H. Wolcott was the fortunate contestant, the club trophy, Joseph Conrad's "Rescue" being presented to her for top score in the Auction game. At the close of the afternoon Mrs. Godbey and Mrs. R. W. Cowart served delightful refreshments.

### COTACO LITERARY CLUB

Mrs. W. B. Robertson entertained her literary club Tuesday afternoon at her residence on Fourth avenue. The president, Mrs. Otto Moebes was in the chair and presided over the meeting during the business session. Mrs. J. D. Bush was leader with Mrs. J. T. Nelson, assisting. The topic of study, Guinea, was ably conducted. Mrs. Sheffield was the club visitor. During the social hour Mrs. Robertson served an ice course.

Mrs. Horace Beard and daughter, Miss Louise, who have been the guests of Mr. and Mrs. H. B. Beard for the past month, left yesterday for a two weeks' visit to Biloxi, Pass Christian and New Orleans, and will return to Albany the later part of the month, before returning to their home in Newport, Pennsylvania.

Mrs. W. A. Bibb, accompanied her daughter, Mrs. C. H. Eyster home from Selma Monday. Mrs. Eyster is greatly improved following her accident in Selma.

Mrs. Z. M. Simpson was painfully burned this morning at her home on 4th Avenue South. Her clothes caught fire from the cook stove. She received immediate medical attention from Dr. C. S. Chenault. Altho painfully burned she is resting as well as can be expected.

### U. D. C.

The United Daughters of the Confederacy will meet Thursday afternoon with Mrs. John H. McMath, 221 Cherry street, as Mrs. E. D. Whitman is unable to entertain on this day.

Mr. and Mrs. R. H. Wolcott and Mrs. A. Z. Bailey are in Madison today.

Mr. and Mrs. R. H. Wolcott will leave today for a few days' visit to relatives and friends of Madison.

Prof. R. W. Cowart has returned from Atlantic City where he attended the National Educational association.

### W. M. S. NINTH

STREET M. E. CHURCH  
Missionary Society Ninth street M. E. Church met with Mrs. J. W. Curl Monday afternoon.

The devotional opened with the singing of hymn 258, Mrs. Cobb, kindly furnishing the music. After a prayer by Mrs. Puckett, Mrs. McCalla, read a short scripture lesson. The reports of the different committees were then given for the month of February which was very encouraging. Mrs. McCalla delegate to Sylacauga annual conference W. M. S. North Alabama, made a splendid report which was enjoyed by all. A most pleasant social hour followed and Mrs. Curl assisted by Mrs. McCalla and Mrs. Butler served delicious sandwiches and tea. The tea served was sent the society from China.

Home of Famous People.  
Famous folk were among the authors, inventors and composers who made Bardstown, Ky., their home. Take it from the Automobile Blue Book. The composer was Stephen Collins Foster, who composed "My Old Kentucky Home." The inventor was John Fitch, who built the first steamboat. The author, perhaps, better known than either of the two was J. James, author of the phrase, "Hands Up!"

A geographical mile is 1.15 statute miles.

### PREFERRED TO GO UNTAUGHT

Rather Than Learn Hated Language of the Magyars, the Slovaks Remained Illiterate.

Slovak stupidity was as deliberate as is the sturdy determination of the Czech. Forced by the Magyars to learn a hated tongue or go untaught, the Slovak chose the latter course; hence he is largely illiterate today, his ignorance a tribute to his sense of freedom. One of their number explained it to me in the cafe of a mountain village. He saw me sitting alone and his first sentence explained why he came over to speak to me.

"You are lonely, I think," he said. And as we sat there, in the small cafe, he told me how, rather than submit to Magyarization under the Hapsburg regime, he refused to study till the day when his fond dream came true and he set out for America.

After his arrival in the United States he went to night school, and, judging from the quality of his English, he profited well from the privilege.

"Nobody forced me to learn English," he explained; "I did it because I wanted to. English is a very 'practische' language, and I wanted to be an American through and through, so I worked hard at night to learn. I got my first papers all right, and then I came back for a visit. Then came the war, and I had to stay."

His number is legion and he is making the mental atmosphere of Slovakia.—National Geographic Magazine.

### BELONGED TO MEDICI FAMILY

Well-Known Pawnbrokers' Sign Once the Heraldic Device of House Famous in History.

During the Middle Ages the Lombards made a practice of lending money at interest. The Medici family was the first to turn the practice into a profession.

Many years before, Averardo de Medici, a Commissioner who served with distinction under Charles VIII, the Great, killed the giant Muggello, whose club had three iron balls attached to it in order that it might be a more effective weapon. For this reason the family of the Medici adopted the three balls, gilded, as the heraldic device on their coat-of-arms, and the appearance of this insignia soon came to be recognized as a symbol for money-lending.

Incidentally, the name of the Medici family has been further perpetuated through the word "medicine" a tribute to the skill of the members of this house in the art of healing.

### Queer Cradles for Babies.

An infant in Guinea is usually buried in sand up to its waist whenever the mother is busy, and this is the only cradle it ever knows. The little Lapp on the other hand, fares most luxuriously in its mother's shoe. These Lapp shoes are big affairs of skin stuffed with soft moss, and can be hung on a peg or tree branch safely out of the way.

### Bower-Bird's Wooing.

A cynical method of enticing a hesitating partner into the bonds of matrimony is furnished by the bower-bird, which builds a structure of sticks formed into a kind of passage or avenue and beautifully ornamented with feathers and shells. On its completion the would-be bridegroom brings the bird of his choice to inspect his fine establishment and entices her to share it.

### Rabbit Leather.

Samples of rabbit leather recently sent to this country from Australia have been examined and tested by the United States bureau of standards, with a view to determining the utility of such skins for shoe uppers or other purposes.

The leather was found to have only about one-fourth the strength of calf-skin and to tear rather easily. It has a great advantage in point of cheapness and might perhaps serve for uppers of fancy shoes that are not expected to stand much wear. The experts are of the opinion that it could be used to advantage for linings and novelties.

### Preparing Soil for Tobacco.

For the purpose of tobacco growing the soil must be thoroughly cleared of weeds, seeds and insect larva before the plants are set out. Old practice was to build fires over the surface, but the operation is now accomplished by means of a canvas cover under which live steam from a road roller is projected. A high temperature is maintained for two hours.

### Postage Stamps.

The adhesive postage stamp had its origin in England in 1840 as a direct outcome of the postal reforms of Sir Rowland Hill. In 1847 the United States adopted this method of collecting postage, with two beautifully engraved portraits of Franklin and Washington.

## Sure Relief

BELL'S FOR INDIGESTION

CATARRH of head or throat is usually benefited by the vapors of VICKS VAPORUB Over 17 Million Jars Used Yearly

Biliousness Permanently relieved without sickening. One Pill at night will do the work. RAMON'S LIVER PILLS

Prospective Mothers who prepare carefully with Mother's Friend make Child-birth easier.

It is recorded of the primitive American Indian women that child-birth with them was entirely painless.

Modern dress was unknown!

Exact social duties that wreck so many women of today were a minus quantity in their lives; and so it is small wonder that the weaker sex becomes a prey to misgivings when approaching maternity nears the crisis. But this should not be—because

—the prospective mother can find comfort in MOTHER'S FRIEND. An external lubricant that spreads its influence over the skin; penetrates to the broad, flat abdominal muscles, and prepares the way for an easier, quicker and practical delivery.

Many doctors and nurses recommend MOTHER'S FRIEND. Get a bottle from your druggist today.

For valuable booklet—"MOTHERHOOD and The BABY"—free, fill in coupon below and mail direct to the makers of MOTHER'S FRIEND.

WARNING: Avoid using plain oils, greases and substitutes—they act only on the skin and may cause harm without doing good.

MOTHER'S FRIEND. Used by Expectant Mothers for Three Generations.

Rogers	128	105	124

**Atlanta Votes for Millions in Bonds**

(International News Service)  
ATLANTA, Ga., March 9.—This city has authorized enlargement and improvement of public schools and water works by voting for a bond issue of \$8,850,000 it was shown today when a count of votes in yesterday's special election was made known.

**Enthusiastic Over His Western Trip**

J. E. Gailey, after spending the winter at California points, has returned home enthusiastic on the Golden West. Mr. Gailey while west was at Long Beach and environs, the guest of his daughter, Mrs. Wallace, nee Nona Gailey.

His collection of star fish, shells, and other marine life are not only interesting but beautiful.

**Supply of Beer Worries Officers**

(International News Service)  
WASHINGTON, March 9. — Beer for the sick was the big problem confronting prohibition enforcement officers today. The Department of Justice ruled the sick may have beer if they want it. The internal revenue bureau is in a quandary over how to arrange a supply.

Relaxation of the rules opening up some breweries and permitting them to sell "beer with a kick" to authorized dealers extra dries say is dangerous.

**FEDERATION MEETS**

The Wesley Bible Class Federation and Conference Elementary Institute will be held at Birmingham, April 7 and 8, Highlands Methodist Church. The first session will be in the afternoon of Thursday at 2:30. The speakers will come from Nashville, and are W. C. Owen, E. R. Stanford, M. W. Branham and Miss Minnie Kennedy.

**CAMERA SHOWS UP DEFECTS**

Why It Is Generally Necessary That Photographs of the Human Face Be Retouched.

Why does a photographer have to retouch his negatives before his customer is satisfied with the picture? The eye of the camera sees things differently from the human eye, although there are some lenses that so diffuse the image that the harsh detail is eliminated. These are the so-called "soft-focus" lenses, and photographs made with them generally need no extensive retouching.

It is the difference in "seeing color" between the lens and the eye that is largely responsible for retouching. The ruddy complexion, so suggestive of good health, under the relentless eye of the camera may turn into dark blotches, for red photographs dark.

The penetrating blue-violet rays are those chiefly used in photography, and these rays furnish the delicate "modeling" of form. The surface of the skin reflects these rays into the camera, and all the irregularities of the skin, such as wrinkles, become more noticeable than when looked at with the human eye, which sees mostly by the red and orange, instead of the blue-violet rays caught by the eye of the camera. —Popular Science Monthly.

**Big Irrigation Project.**

In the state of Washington there is under way a gigantic irrigation project which is unprecedented. It is designed to serve 1,753,000 acres with 20,000 second-feet of water at an outlay of \$30,000,000. That is what has been done by the Columbia basin survey commission with a state appropriation of \$100,000. In fact, the project is unprecedented as a whole as also are some of its elements compared with irrigation works heretofore executed, while in point of cost and general magnitude it is second to but few public work projects either carried out or planned. The daily capacity of the main canal and other trunk-line conduits is 1,728,000,000 cubic feet, or 12,275,000,000 gallons, which is twenty-five times the carrying capacity of the Catskill aqueduct.

**Both Wear the Gold Band.**

Plain gold wedding rings are bought in duplicate by the bridegrooms of Chile and Peru, one ring being given to the bride and the other retained by the groom.

**Who says "Breakfast is Ready?"**

The clock may say it — custom and habit may say it — but how about the bodily needs, that are to be provided for as the day's work begins?

**Grape-Nuts**

is a "good morning" food. Its flavor charms the taste and its nourishing qualities sustain the body without burdening the stomach. Grape-Nuts is the perfected goodness of whole wheat and malted barley, and when it is on the table, *breakfast is ready.*

**"There's a Reason" for Grape-Nuts**

Made by Postum Cereal Co., Inc., Battle Creek, Mich.

**COTTON MARKET IMPROVES TODAY**

(International News Service)  
NEW YORK, March 9.—The cotton market had a much better tone as the opening here and at Liverpool. Values at the latter point were aided by an improved demand for the spot article. First prices here showed gains of 28 to 35 points, with Wall street and shorts the best buyers. Offerings were supplied by New Orleans and spot houses, but the list held most of its advance and at the end of the first 20 minutes was about 27 points net higher.

**MEETS TONIGHT**

Albany Lodge, No. 491, A. F. & A. M. is called to meet tonight at 7 o'clock for work in the E. A. Degree. A. Master Masons are invited to be present.

A. Q. McDONALD, W. M.

## There will be no Round Oak Heating System for you next fall unless you contract now

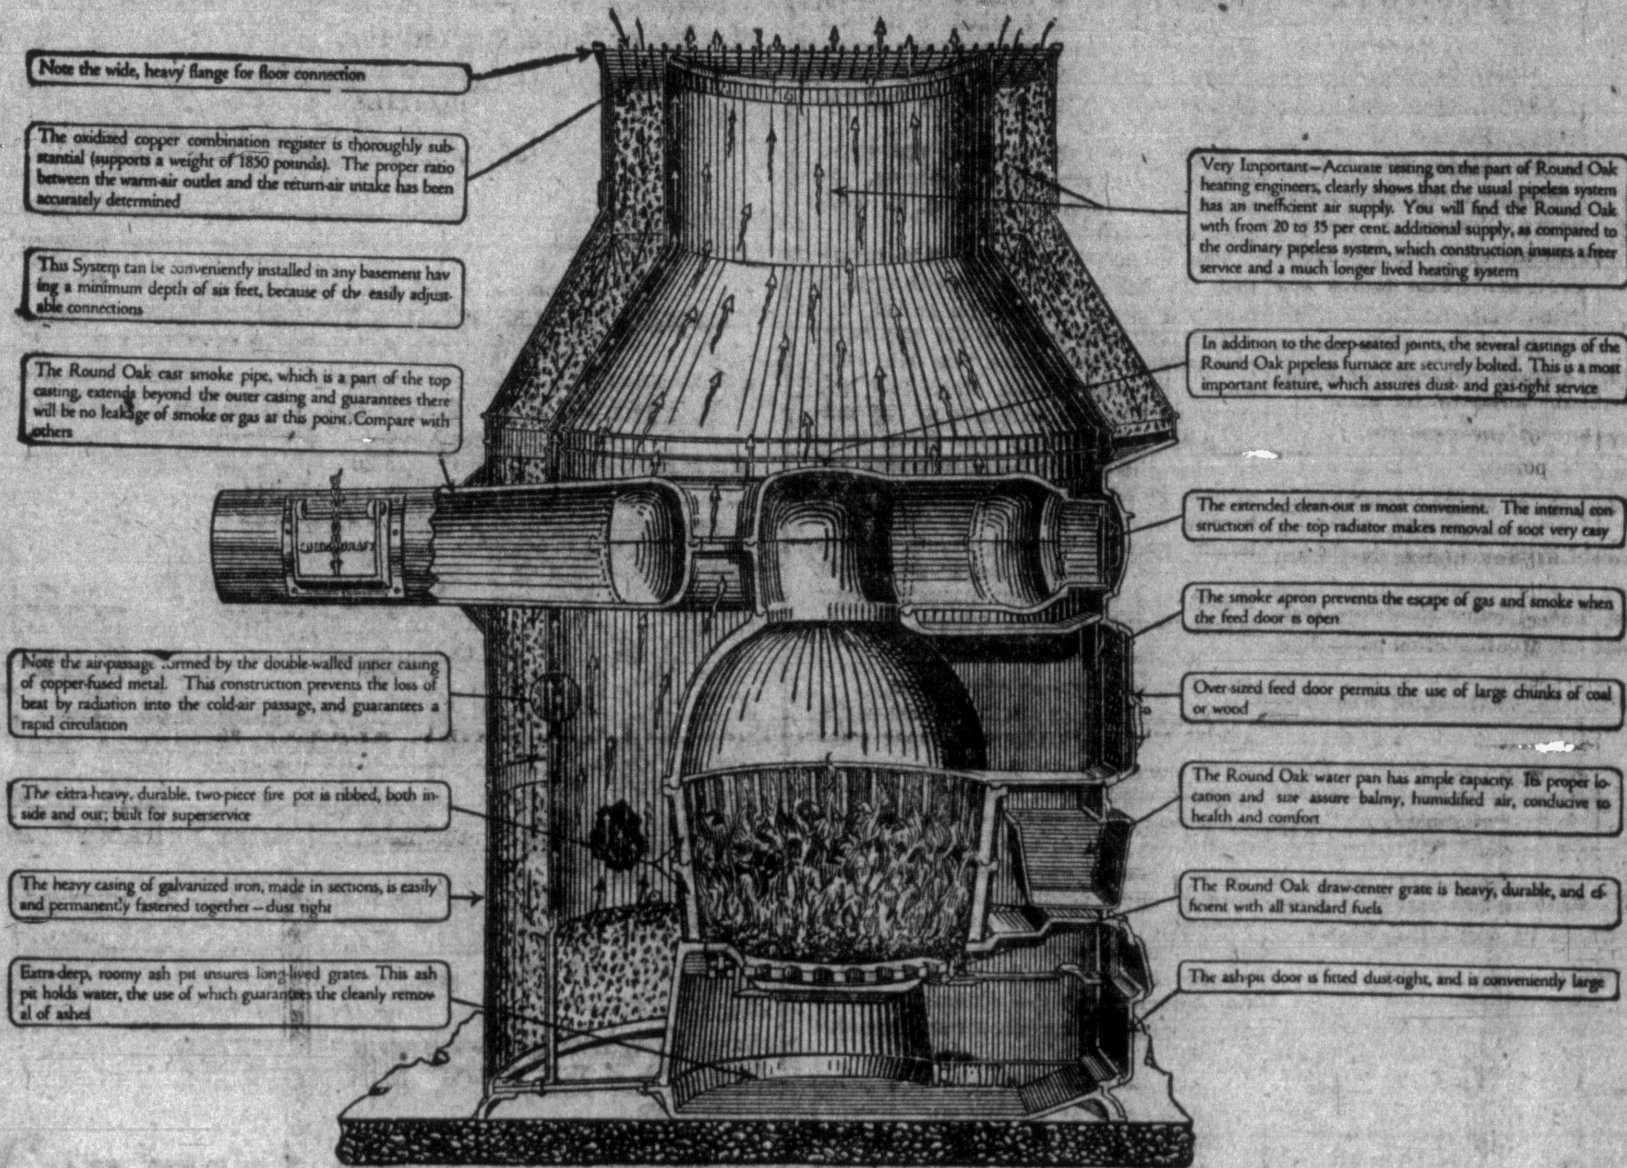

Confronted with the facts, it looks at the present writing as though there will be no heating systems available this fall for those who wait until the last moment. Here is startling evidence: The 6,000 Round Oak dealers are able to secure this year only their quota of Round Oak Pipeless Heating Systems. When this has been exhausted, no more will be available at any price.

The delayed building during the last five years has placed the problem of immediate supplying 3,000,000 homes up to America; right in our own city and surrounding country we are short scores of homes. Add to this the fact that one out of three heating systems still in use, should be replaced and you can draw your own conclusions. We sense an obligation in regard to this community. It is to give every prospective purchaser of a heating system this year an opportunity—right now—to contract at the lowest possible price for a heating system which may be installed later. That is why we have determined on this Ten-Day Sale featuring only the

# ROUND OAK

## PIPELESS FURNACE

You should know This Patented Pipeless Heating System You should investigate

## Contract now without seriously interfering with your present money plans

We have arranged to accept a reasonable payment down and then divide the balance of the investment into convenient monthly payments. By next fall the heating system will be yours, at a time when you will wish to invest your available funds in fuel, winter clothing, and other necessities. You will have the supreme satisfaction

of knowing that you have safeguarded well the comfort and health of those that are near and dear to you; you will have complimented your foresight and business judgment by having purchased at the lowest possible price; you will have solved for the next generation this question of home comfort.

### PRICES GUARANTEED—UP TO DEC. 1

We have very sound reasons for believing that it is impossible for prices to be lower than the one at which we have marked this heating system for sale. We pledge to you, however, should there be for unexpected reasons any lower prices available later in the season, we will refund to you this amount. This removes the only possible objection to contracting now.

What possible reason can there be for delaying this important matter? If you have had occasion to have sheet metal work done in former years and have contracted for its completion in the fall and early winter, you will recall the delay, the aggravation, and the inconvenience for the reason that there are not enough sheet metal men available for the rush that comes every fall season. By contracting at this time, we will be able to install this heating system when our men have plenty of time to do for you the kind of work that you have a right to expect and that it delights us to give you. You are then taking no chance on going into the winter season with the present inefficient heating system, or perhaps the same old stoves. Ask yourself—"Is there one single reason why I should not immediately avail myself of this offer?"

MR. MACON, Factory Demonstrator Is With Us THIS WEEK

## MARGARET WILSON QUITE SURE CONGRESS OUGHT TO BE MUZZLED

(International News Service)

WASHINGTON, March 9. — Congress ought to be muzzled.

So asserts Miss Margaret Wilson, the ex-President's daughter. Miss Wilson is highly indignant because Congress meddled in community center work and withheld funds for its promotion in Washington.

"Congress says there is too much free speech and too much dancing in our centers," he said. "Isn't that amazing?"

"Can't we listen to Socialist speeches or dance as much as we please without having Congress break in and tell us what we should do?"

Miss Wilson was bitter toward Senators and Congressmen who opposed funds for the community centers which hold meetings in school buildings.

"It would be more logical and reasonable," she said, "for us to make rules limiting the discussions of these Congressmen who are accountable to us; than that they should make rules for our meetings."

"If we should initiate a nation-wide referendum to make new rules for Senate discussions, what an outcry there would be from that chamber."

"It would not be a lawful proceeding I know, but just as lawful as the attempt of some of these Senators to intrude their views and attempt to dictate a mode of conduct for our community meetings."

"The other day on the Senate floor it was suggested we should not talk politics in our meetings. How amazing that is! Is it the business of Congress to supervise the activities of speech of those they represent?"

Miss Wilson proposed to a gathering of leading women suffragists here that citizens everywhere should inaugurate more direct representation by establishing neighborhood community centers, through which they may give more potent voice to the needs of their localities to those in authority.

### AIR GLIDERS IN COMPETITION

Remarkable Speed Attained at Recent Meeting in the Rhone District of Germany.

A German gliding and soaring competition was recently held in the Rhone district by the League of German Model Aircraft and Gliding Clubs. The meeting was marred by an unfortunate accident, resulting in the death of the well-known pilot, Von Loessel. This was due to breaking in the air at the elevator of his glider. A number of monoplane and biplane were entered, reports the Scientific American, some of very novel design. Many of the entries had comfortable seats and landing gear as distinguished from the old-time gliders in which the operator's legs swung from below the planes, ready to take up the strain of hard landing, often at the price of serious injuries. The longest distance covered by the gliders was 1,830 meters, with a duration of 142.5 seconds. That record was made by Klemperer, with a height of 330 meters. The apparent gliding angle of Klemperer's flight was one in thirty-one.

### More Than Two Years En Route.

In June, 1918, some Canadian soldiers, crossing the Atlantic to join the forces in Europe, threw overboard in mid-ocean a sealed bottle with a note inside to the effect that they were on their way to the war and asking the finder of the bottle to forward the note to the Toronto Sunday World. The bottle has just been washed ashore at St. Ives in Cornwall and the request been carried out. What would be interesting to know would be where the bottle has been during the last two years and a half, and what is the drift that brings so much flotsam and jetsam into the harbor of the little fishing town on the Atlantic. There are many theories, one of which credits the Gulf stream with a memory for the old smuggling days and an intention, in the case of the Canadians' bottle, to show awareness of these good new days which find fresh uses for things of unlovely repute.

### Ideal Lighting.

According to an illuminating engineer, what is wanted today in home illumination is the sort of good lighting that is found on the shady side of a tree on a sunny afternoon. Substitute for the sun a new 100-watt lamp, for the sky the creamy ceiling of a living room and for the tree an opalescent disk or bowl from the ceiling you now get a soft radiance which floods the entire room as though it were opened to the sky; from the diffusing disk you get a generous addition of light directly beneath having the quality of filtered sunlight. You have approximated the charming effect of mellow radiance that was apparent under the tree.

### Tree's Peculiar Growth.

Trees that grow with a spiral twist, concealing a ropelike fiber under a straight bark, are not unknown, but are generally regarded as arboreal curiosities. A recent instance in which a pine tree of this curious formation discovered through the agency of a lightning stroke, is reported by W. M. Kern, of New York city. The bolt, in its downward course, circled the trunk seven times, leaving a spiral channel in which a man's arm could be laid, and disclosing the fact that the grain of the wood followed the same helical lines, though the bark and limbs appeared normal.—Popular Mechanics Magazine.

# PATHE NEWS

\* \* \*

We are very proud to hold the distinction of being connected with such firms as the Starr Piano company and Pathe Freres Phonograph Company. These instruments give such universal satisfaction and are built for such service that they simply advertise themselves. With satisfied owners everywhere, it is an easy matter to sell such instruments, and a prospect seldom comes in that has not already made up their mind what they want musically, and it's either a Pathe phonograph or a Starr piano.

\* \* \*

We want to convince every customer in our cities that we have a perfect right to call ourselves "Furniture Value Givers" and that we live up to our slogan to the letter. In order to impress this fact on the minds of the purchaser, we are going to see just how cheap we can sell furniture the remainder of this week and ask that you go to all the other stores, then come here and get the proof for your self. Classy Bed Room Suites, Dining furniture, Mattresses and everything we carry in the furniture line will remind you of "old times" when you get the prices.

\* \* \*

RUGS? We are going to make rugs our leaders in this "value giving" campaign and as sure as you come you are going to say "how can you do it." There is no rug in our store that has been here more than three weeks and we have some very beautiful patterns in several different grades. Wool and Fibre, Brussels, Axminsters, Congoletum and Linolium for the kitchen. And will be attractively priced that you can afford to purchase what you want right now.

\* \* \*

We have always believed in moving goods at small profit and moving them fast. We are better satisfied with two sales at half the profit usually charged on one sale, then we know we have every one we sell boosting for us by telling others where to go to get the right kind of deal. Our offerings in VALUES this week is to get new customers to come with the old ones, and see our values. We want your business and will never be satisfied until we are given a chance to serve you for at least a part of your needs. We sell good goods and tell you the truth about them.

\* \* \*

Our concert was a great success, and we are thankful to all those who helped to make it son. Prizes were flying thick and fast for some time, and many prizes from Calotabs to dainty silk under garments were won by many. It seemed for some time that the people were afraid to take advantage of the prizes offered, but when they realized that every prize was something worth while, and that regardless of whether or not it was a Camisole or pair of Hose or Calotabs, it was all fun any way, and we all had a jolly good time.

\* \* \*

Now, don't forget our "Value Giving" for the remainder of this week. We want to show you that the mail order houses have no business sending catalogues into Albany. We take their catalogue and undersell them, and always have. Then you get to see what you buy, we deliver it in your home, then if it is not as expected, you call us and we make it right. Isn't that much better than sending away for the things you can buy cheaper at home? Just visit our store this week and be convinced.

\* \* \*

We are going to "serve" music again some time soon, and will try to provide for more people than our first concert. We were sorry to see so many unable to get inside our store, but we made the best arrangements possible at the time. We have heard and read of "mashers" but this concert beat all we ever dreamed about. Every body got hugged that night and no one could help it.

\* \* \*

Don't forget our "Value Giving"  
the rest of this week.

## KELLEY & HAUK

"Largest Music Dealers in  
North Alabama"

### Henry East, Noted "Escaper," Asks Board of Pardons to Release Him on Parole

(Montgomery Bureau Albany-  
Decatur Daily)  
MONTGOMERY, Ala., March 9. — Henry East, probably the most spectacular person ever sentenced in Alabama, today asked the state board of pardons to recommend his release on parole. East is a trusty and is serving a long sentence for burglary committed in Lauderdale county. His record is a singular one in Alabama.

East attracted first attention by jumping from a moving passenger train and escaping. He was recaptured but escaped again. After he was recaptured the last time Len F. Greer,

then associate convict inspector, talked with him and obtained his promise that he would not escape again. East has kept that promise. His record after that promise was so good he was made a trusty and since that date has enjoyed all the privileges a convict may enjoy.

East told Mr. Greer he escaped because he did not think he was being treated right. When assured that he would receive proper treatment he told Mr. Greer he would never escape again, but that if the desire ever came upon him he would notify Mr. Greer in order that he might again be placed behind the bars.

### Marbles Proves Popular Sport for Both Grown-Ups and Kiddies at Moulton

MOULTON, March 9. — Special. — And they played, and they played, from early morning till night, from Monday morning till Saturday dusk, all last spring and summer, all last fall and early winter, until the cold chill days of December closed the doors of all the stores and crowded men around the stoves—played? Marbles! All the men and boys of leisure, of pleasure and of business, about the town of Moulton, in the

little space by the postoffice. Then all at once last week some little boys found "laws" and time to start a game, and again the sport is renewed, by men with and without business, with and without professions, and well everyone is agreed that the idle time of Moultonians has never before been so pleasantly spent as it has been for a year and has begun again to be, in the marble yard by the postoffice walls.

### Amusements

#### "THE WOMAN GAME" STAR THEATER TONIGHT

That matrimony is "the woman game" in the same sense that business is "the man game" and that a woman may use any weapon in her power to obtain her objective the same as a man operating in Wall Street and carrying on any sort of business, is the theme in "The Woman Game," the latest Selznick picture-play, starring beautiful Elaine Hammerstein, which is playing at the Star Theatre today. This is a novel theme and has been handled in a most unusual way, making a photo-drama filled with highly dramatic moments and much real heart interest.

Elaine Hammerstein is seen in the role of an impoverished society beauty, who seeks to make a good marriage because of the laments of her mother who impresses upon the girl that this is her duty.

As Amy, Miss Hammerstein is splendid. She is surrounded by a capable cast and the entire production is another big success for the Selznick studios. The wealth of detail noticeable in all Selznick pictures is present and the usual wonderful interior scenes are much in evidence.

#### DOROTHY GISH IN ROYAL PURPLE IN HER NEW PICTURE Delite Tonight

At last Dorothy Gish has fallen for the Royal Purple. Yes, it's a fact, the popular little comedienne will be seen as Her Royal Highness to the steenth degree when she appears as the heroine of "Little Miss Rebellion" at the Delite Theater tonight.

If you have any doubts as to Dorothy's right to wear the royal robes, just glance at her titles in "Little Miss Rebellion." She is known as Her Sublime Grace, the Grand Duchess Maria Louise, hereditary Countess of Blavatski, Countess of Warsaw, Honorary Colonel of the Life Guard, and a dozen and one other titles too numerous to mention.

And this same titled little lady finds herself with a heavy date to go to a ragtime dance with Mike Casey, of Dayton, Ohio, onetime private in the United States Army. And Her Highness, etc., etc., keeps the date, too.

"Little Miss Rebellion" was made for laughing purposes only, and if you know your Dorothy Gish you know what that means. It is one of the funniest Paramount pictures thus far turned out for Miss Gish and her company of associate players and is an all-comedy company.

"THE MIKADO" The coming of the Ralph Dunbar production of Gilbert and Sullivan's comic opera "The Mikado" to the Princess tonight will prove a noteworthy event in local annals. It affords the opportunity desired by hundreds of hearing the famous and tuneful opera adequately done, with a cast of real American principals, a chorus that cannot be equalled and a complete equipment of costumes, scenery and lighting effects, together with a symphonic orchestra.

So promised and overwhelming is the assurance of support for "The Mikado" that Mr. Dunbar is willing to assume the risk of sending to the smaller cities, a real metropolitan attraction. However, it should be remembered that the coming of the big opera is somewhat of an experiment. Manager Cagle of the Princess asks that everyone, lovers of American standards in musical art and citizens in general, be boosters for "The Mikado."

"I want to get more productions from the Dunbar offices" says Mr. Cagle. "The Dunbar folks have mammoth productions of 'Carmen' and

### SMOKE CANDLE VAPOR DEADLY

Warrior Weapon Said to Have Been Brought to Perfection by the War Department.

One of the many ingenious contrivances developed during the recent war was the "smoke candle." Such candles were little cylindrical boxes containing smoke-producing chemicals, which could be ignited at a moment's notice by a sort of friction device. They were used to conceal the movements of small groups of men. When touched off they were simply placed on the ground, to make a smoke screen.

The Americans thought it would be a good idea to use smoke candles that would give off a poisonous smoke. These improved candles did not come into use during the war, but since then the chemists of our War department have perfected them. The poison stuff used is a coal-tar product which, a solid at ordinary temperatures, vaporizes in the heat of the burning candle. The vapor will penetrate most gas masks. The military authorities think that such poison smokes will find very extensive use in future warfare.

The smoke of a smoke-candle is usually white. To be effective for concealment, it must, of course, be as opaque as possible; and it must also be heavy, so as to be not easily blown away by a light breeze. Candles that produce a smoke of zinc chloride meet these requirements admirably, but the addition of "diphenylchlorarsine" makes them poisonous as well.

### SCORED ON COUNTRY COUSIN

City Lad Had Endured Much but Opportunity Came and He Surely Improved It.

The country visitor had been regaling his young Glendale cousin with tales of the farm. Some of his stories seemed a little far-fetched to the city lad, who at last became somewhat wearied with the rural youth's boasts of the superiority of things "on the farm."

They were walking along the street when two young men sporting the small skull caps of U. of S. C. were seen approaching.

The country boy was a little mystified. "What's this?" he questioned, "a new city style, these little caps?"

The Glendale lad saw his chance to get square. "Oh, those," he said with assumed carelessness, "no, you see these fellows are students at the university. All the boys who enter have to wear those caps because under the system of education they receive their brains develop so rapidly that their heads grow in circumference, and if they wore ordinary hats, new ones would be necessary almost every month."—Los Angeles Times.

### Keeping Down Mine Dust.

The presence of dust in mines is disagreeable from many standpoints, besides being a positive menace from its explosive qualities. Efforts are being made more than ever to keep the mine dust down, and it has been discovered in the case of one mine in Kentucky that excellent results were obtained by sprinkling the empty coal cars. The operation is performed automatically as the cars are moved along after being dumped, and the difference in the atmosphere of the mine was apparent to all.

### Age of Petroleum.

The age of petroleum is here. From an humble beginning in 1859 it has now reached a point where it is consumed in ever increasing quantities until the problem of its production has become one of the most absorbing of international questions—to that country which controls the output belongs the power of the world.

### Talk It Up.

Budd—Who originated the phrase, "Say it with flowers?"  
Judd—I guess it was the man who put "oral" in "floral."
